

Pain Isn't Always Obvious

Individuals depicted are photography models and are for illustrative purposes only.

There are people in our community who experience intense sadness every day. They believe that their life has no meaning and there is no hope. And because they are ashamed of what they are going through and they find it difficult to understand their experiences, they hide their pain. The warning signs are there, but not always obvious. If you observe even just one of these signs, reach out to provide help in time.
